

About JSUN

Jsun Industrial Group began its official activity in the field of polymer parts production in Iran _ Isfahan in 1997.

Along the way, with the aim of developing and utilizing the maximum available capacity, by utilizing both experience and up-to-date knowledge, the specialized production of drip irrigation fittings under the Jsun brand was formed.

The strategy of the Jsun Group is to produce export-oriented products, and over the years, it has been able to supply products throughout the vast homeland of Iran, as well as capture a share of the export of drip fittings.

Jsun drip irrigation product categories

connections, Branch Valves, wrenches and essentials, washer & Drippers

Designed and manufactured with precision, ensuring durability, easy installation, and reliable performance in every irrigation system.
